

Short Bio

Ken Krechmer (krechmer@csrstds.com) is the founding technical editor of Communications Standards Review and Communications Standards Summary of Palo Alto, CA, the only technical journals reporting on standards work-in-progress in the Telecommunications Industry Association (TIA), the International Telecommunications Union (ITU), the European Telecommunications Standards Institute (ETSI) and The DSL Forum. CSS is a TIA authorized publication. He has also been secretary of TIA TR-29 (facsimile standards) 1990-1995 and a US delegate to ITU-T Study Group 8 (fax), 14 (previous modem standards), 15 (xDSL) and 16 (current modem and video conferencing) meetings. He is a Senior Member of the IEEE and a Member of Society of Engineering Standards. Utilizing this broad view of formal communications standards work, he has consulted since 1981 and teaches how standards affect organizations' products and services. Clients have included France Telecom, NEC, Dialogic, Intel, Ascend Communications, Pacific Telesis.
