

Dr. Jim Schroeder:

Jim has published over 50 refereed journal and conference papers; in addition, he co-authored with John Hershey a book "The Elements of System Design," Academic Press, 1994.

He serves as a research professor with the University of South Australia, assigned to the Centre for Sensor Signal and Information Processing as the Image Analysis Deputy Program Leader and to the Institute for Telecommunications Research as the Modem Group Leader.

Jim previously was with University of Denver as an Associate Professor in Electrical Engineering. His industry experience includes BDM Corp., Harris Corp., and Rockwell Corp. Jim has consulted to Mobile Data Systems, Omnipoint Corp., Scientific Atlanta, Zing Systems, and Litton Advanced Technologies for a variety of wireless communications applications. He served six years as an Electronics Technician in the US Navy prior to commencing engineering studies.
